

# Steps to your Certificate

## 1. Information

Read up on the standards and relevant literature. Attend information events and take advantage of our offer of a free information meeting. We will inform you about current requirements and the typical process of a certification project.

## 2. Decision

You decide which standard or set of rules is most suitable for you. You decide how to proceed and determine the timeline for your certification.

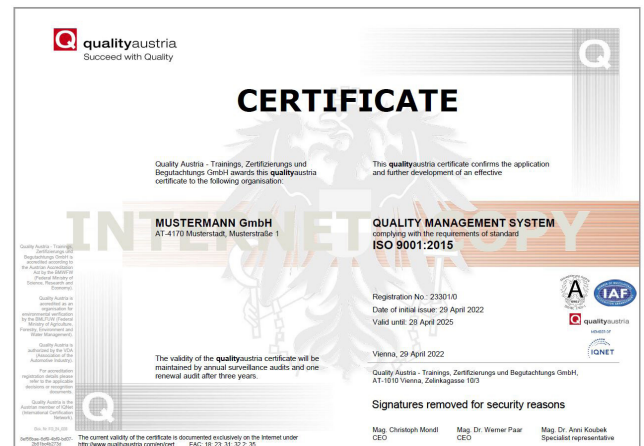

## 3. Concept

You analyze the standard requirements and plan their implementation together in your organization. This also includes redesigning and establishing processes. You train employees and ensure commitment at every level.

## YOUR CERTIFICATE

ISO 9001 is worldwide the most popular standard for management systems worldwide.

Sample certificate

## 4. Certification audit stage 1

We assess the certification readiness of your management system.

## 5. Certification audit stage 2

We audit the processes and requirements on the basis of random samples that we take within your organization.

## 6. Your Certificate

You receive your **qualityaustria** certificate as proof of conformity. Successful certification is proof of quality that can be communicated internally and externally. This improves your reputation on the market and your chances in tenders.

## 7. Continuous further development and chances of winning tenders

As a certified organization, you continuously develop your management system in order to support your strategic orientation and your business success.

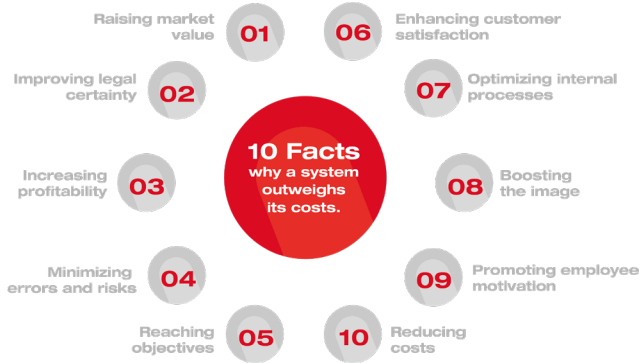

## WHY QUALITY AUSTRIA?

### Quality Austria Certification...

- adapts the offer to your specific requirements and supports you in focusing on your long-term goals.
- has an enormous network of over 1,000 experts who can support you with accuracy.
- is the leading Austrian authority for personal, system and product certification.
- has the most comprehensive scope of accreditation in the field of management systems in Austria.
- is a competence provider through its participation in various ISO standardization committees and international networks such as IQNET.

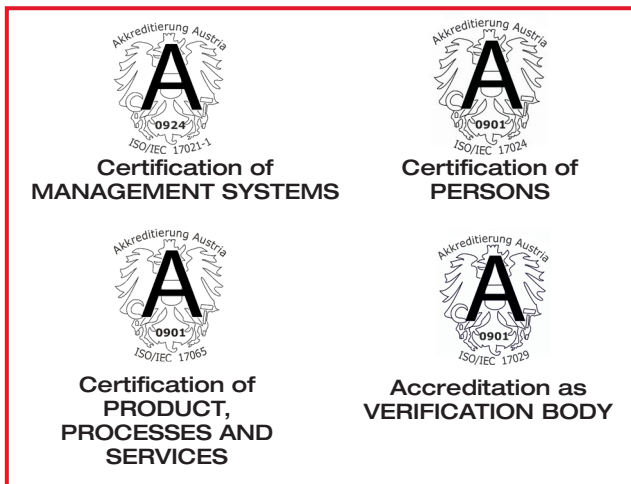

## 10 FACTS WHY A SYSTEM OUTWEIGHS ITS COSTS

## INTERNATIONAL RECOGNITION DUE TO ACCREDITATIONS

Quality Austria Certification is accredited by Akkreditierung Austria. This formally confirms that Quality Austria has the competence to carry out certain conformity assessments:

Information on the respective scope of accreditation can be found at: [www.qualityaustria.com/en/company/accreditation/](http://www.qualityaustria.com/en/company/accreditation/)

## Your path to your personal certification

After a successfully completed examination and fulfillment of all criteria stipulated in the certification program, a **qualityaustria** certificate is issued and sent.

An accredited personal certificate is an official document that confirms the competence of a person in a specific field according to a standardized and recognized procedure. Quality Austria Certification is accredited by Akkreditierung Austria for the area of personal certification according to ISO/IEC 17024 and is therefore authorized to issue such certificates.

As the leading academy for management system know-how, Quality Austria Academy trains the experts of tomorrow – in a practical and competent manner.

The primary goal of our training courses is to provide long-term competence of all participants. This goal goes far beyond the mere transfer of information and is supported by didactic and organizational measures.
